PROFESSIONAL EXPERIENCE

Salesforce Implementation Specialist
Kulturra

Nov 2024 - Jul 2026

- Implemented and customized a Salesforce managed package across multiple client orgs, developing Lightning Web Components (LWC), Apex, and Flow automations to deliver scalable, maintainable solutions tailored to each customer's business requirements
- Developed feature enhancements that improved the scalability and REST API capabilities of the managed package, enabling seamless integrations with payment providers such as Elavon and NMI while streamlining customer onboarding
- Led development of the Salesforce Agentforce managed package, building AI-powered agents for invoice reminders, secure payment links, and in-app user guidance, improving customer self-service and reducing support workload

Salesforce Developer
Quantrics Enterprises

Jul 2024 - Nov 2024

- Led migration of legacy Visualforce pages to Lightning Web Components (LWC), refactoring supporting Apex controllers where needed to improve maintainability and UI responsiveness
- Re-architected legacy Process Builder automations into record-triggered Flows, reducing technical debt while improving performance, maintainability, and Salesforce governance compliance
- Performed code reviews for Apex and Lightning Web Components (LWC) and supported Salesforce deployments, ensuring code quality and reliable application releases

Salesforce Developer
Cloudstaff

Oct 2023 - Jun 2024

- Migrated legacy Salesforce Classic and Visualforce functionality to Lightning Experience, improving maintainability and user experience
- Developed Lightning Web Components (LWC) for the client's Experience Cloud portal, improving UI responsiveness and long-term maintainability
- Developed Apex solutions, resolved application defects, and supported Salesforce deployments, ensuring reliable application functionality and successful releases

Salesforce Developer
Accenture

Jun 2021 - Sep 2023

- Developed an Einstein Bot with Lightning Web Components (LWC) to automate customer inquiries, lead creation, and conversation tracking, improving customer engagement and follow-up efficiency
- Automated sales workflows using Validation Rules, Approval Processes, Flows, Apex, and Triggers, improving data consistency and reducing manual effort
- Developed a custom application form using Aura Components and Apex, replacing Screen Flows to improve performance and support complex user interactions

Associate Salesforce Developer
Accenture

Feb 2020 - Jun 2021

- Designed and implemented Screen Flows for multiple application forms, enabling administrators to modify logic and fields without developer intervention while reducing technical debt and maintenance effort
- Developed Visualforce pages to generate and export structured data to CSV, eliminating manual Excel data entry and improving reporting efficiency

CERTIFICATIONS

- Salesforce Certified Platform Developer I
 - Salesforce Certified Platform App Builder
 - Salesforce Certified Agentforce Specialist
- Salesforce Certified Administrator
 - Salesforce Certified Foundations

SKILLS

Salesforce Platform	Apex, Trigger, Asynchronous Apex, Lightning Web Component (LWC), REST/SOAP API, SOQL, Flow, Agentforce, Aura, Field Service Lightning, Approval Process, Process Builder, Workflow, Reports, Dashboard
