PROFESSIONAL EXPERIENCE

Kulturra

Salesforce Implementation Specialist

Nov 2024 - Jul 2026

- Implemented and customized a Salesforce managed package across multiple client orgs using Apex, Lightning Web Components, and Flow automations to support client-specific business processes.
- Expanded the managed package's feature set through new Lightning Web Components, Apex functionality, REST APIs, and payment workflows with Elavon and NMI integrations.
- Led development of Agentforce-powered capabilities for invoice reminders, secure payment links, and contextual in-app guidance, expanding customer self-service and reducing routine support work.

Quantrics Enterprises

Salesforce Developer

Jul 2024 - Nov 2024

- Led the migration of legacy Visualforce pages to Lightning Web Components and refactored supporting Apex controllers, improving interface responsiveness and maintainability.
- Replaced legacy Process Builder automations with record-triggered Flows, reducing technical debt and aligning automation with current Salesforce platform standards.
- Reviewed Apex and Lightning Web Components and supported Salesforce deployments, strengthening code quality and release readiness.

Cloudstaff

Salesforce Developer

Oct 2023 - Jun 2024

- Migrated Salesforce Classic and Visualforce functionality to Lightning Experience, improving usability and reducing reliance on legacy components.
- Built Lightning Web Components for an Experience Cloud portal, improving interface responsiveness and long-term maintainability.
- Developed Apex enhancements, resolved application defects, and supported Salesforce deployments, restoring affected functionality and supporting stable releases.

Accenture

Salesforce Developer

Jun 2021 - Sep 2023

- Built an Einstein Bot and supporting Lightning Web Components to automate inquiry handling, lead creation, and conversation tracking, enabling more consistent customer follow-up.
- Automated sales workflows using Validation Rules, Approval Processes, Salesforce Flow, Apex, and Triggers, improving data consistency and reducing manual effort.
- Built a custom application form using Aura Components and Apex to replace Screen Flows, improving performance and supporting complex user interactions.

Associate Salesforce Developer

Feb 2020 - Jun 2021

- Designed and implemented Screen Flows for multiple application forms, enabling administrators to update logic and fields with less developer intervention and reducing maintenance effort.
- Built Visualforce pages to generate structured CSV exports, reducing manual Excel entry and streamlining reporting.

CERTIFICATIONS

- Salesforce Certified Platform Developer I
 - Salesforce Certified Platform App Builder
 - Salesforce Certified Agentforce Specialist
- Salesforce Certified Administrator
 - Salesforce Certified Foundations
